POLICY
Purchasing**

The Board of Education requires that:

1. All services, supplies and equipment purchased for the school district, using funds held in district accounts, are acquired on the open market with fairness and honesty and in accordance with competitive public sector purchasing practices.
2. Appropriate ethical business practices are in place for managing all purchases.
3. Goods, services and equipment purchased maximize value for the district.

The Secretary Treasurer is responsible for monitoring all practices to ensure compliance with regulations.
