

**Chilliwack  
School District**

**PARTNERS IN LEARNING**

March 19, 2020

To All School District Staff:

I know that many of you are feeling anxious and have questions regarding your work and what it may look like in the weeks ahead as a result of the announcement made by the provincial government on March 17, 2020 that “all in-class instruction in BC schools will be suspended indefinitely.” We are working with BCPSEA (BC Public School Employers’ Association) and the Ministry of Education on providing that information to you. We have some time during the remainder of spring break to work out the details.

We have posted [Minister of Education Rob Fleming’s March 17 letter](#) on our district website and we will continue to post updates as we receive them.

We want to assure you that we are working diligently in determining next steps. During this time, it is important that those of you on spring break continue to enjoy your time with your families and not worry about the details. Those at work please know that we appreciate all of your efforts during these extraordinary times.

Take good care of yourself and stay healthy.

Rohan Arul-pragasam  
Interim School Superintendent
