

ACTIVITY DAY

CENTRAL ELEMENTARY SCHOOL GRADES K - 5

Activity Day was created to ignite, encourage and support connection, community, and being a good neighbour. Teachers were invited to share a passion with students and they came up with an activity of their choice. We know that when the adults are having fun, students have choice and are able to make connections with others, building community. The day was a huge success because of the willingness staff had to take a risk and try something new. This will be an event we create again! Students could try Lego Land, All About Owls, Games Day, Fondant Creations, Fall Festival, Fine Arts Fun, Fishing Fun, Gardening, Axolotls and Tri-try Sports.

Strat Plan Connection

The **Collective Responsibility** to support **Human and Social Development** ensures that staff view all students as OUR students. By creating an opportunity to have a meaningful, positive experience with students outside of their class, students also build more connections to the adults in our building. This helps to foster a sense of belonging as students have another adult they are familiar with. As well, it provides a learning opportunity they may not have otherwise had.

"That was the best day ever! I got to play with icing all day and with friends I had in my class from last year!" - Student

"[My child] cannot stop talking about axolotls. What a great opportunity it was for them to learn about. [My other child in grade 1] would not stop talking about how they got to hang out with the grade 5 students while drinking apple cider." - Parent
