## **2023 Secondary Summer Session**

### **Grade 9-12 Sustainable Vegetable Production**

Students will be taught about food production through practical, hands-on experiences. Students will learn skills in land preparation, planning, weed control, pest management, fertilizing, pruning, harvesting, marketing and sales and culinary opportunities. Students will work alongside community partners who are specialists in the various commodities grown. Students will take food home on harvest days and be encouraged to prepare and eat the food grown with their families.
