

# BLANKET EXERCISE

## INDIGENOUS EDUCATION

- ✓ *Collective Responsibility*
- ✓ *Human & Social Development*

The Indigenous Education Department provides an opportunity for students, staff, and parents to participate in an experiential learning tool to help build a better understanding of the history of Indigenous People in Canada. Using blankets to illustrate the land and changes to territory over time, participants interact with the presenter and each other as they travel through Canada’s history and learn about the many impacts of colonization on Indigenous People.

*“A concrete way to help understand the history and impacts of colonization on Indigenous people.”*

*“It’s profound”*

*“So powerful. Every Canadian needs to experience this.”*
