

INCLUSIVE SPORTS DAY

Strathcona, Little Mountain, Central, Chilliwack Middle

With the district-wide All-Inclusive Sports Day canceled, Strathcona Elementary reached out to the CMS family of schools and asked if they would be interested in collaborating to create an inclusive event for the CMS family. Quickly, Administrators, Resource Teachers, and Education Assistants got on board to create a day focused on students with exceptionalities!

Central staff provided the stations and supplies needed; Strathcona staff sorted and provided equipment; LME staff provided additional equipment and helped set up stations. Student Services provided the funding for food and transportation, CMS provided leadership students to help supervise stations and the principal of Strathcona cooked the meal! This was a true collaboration as all schools shared in making the event possible.

Of added value was that CMS staff had an opportunity to meet with feeder school students who will be attending their school, beginning to form relationships that can make the transition to middle school smoother.

“Students at Central Elementary continue to talk about the event and had so much fun!”
