

EMERGING THEMES

Safety and Belonging

Safe, welcoming, and inclusive spaces are foundational for learning.

Practical Skills and Future Readiness

Academics, life skills, and hands-on learning prepare students for a changing world.

Mental Health and Well-Being

Support for mental health and physical, emotional well-being is critical to student development and academic success.

Culture and Identity

Students are looking for opportunities to share and learn about different cultures and heritages.

Resources and Support

Supports and resources are necessary for learners to thrive.

Creativity, Curiosity, Critical Thinking

Fostering curiosity, critical thinking, and creative problem-solving helps students navigate complexity.

Equity, Accessibility and Inclusion

All students deserve equitable access to learning opportunities.

Holistic Approach

Educating the whole person: academic, social, emotional and practical skills.

Accountability

High standards, clear strategies, measurable goals and communication.

Life-Long Learning

Everyone in our system is a learner. A love of learning supports personal and professional growth.

Indigenous Perspectives

Learning should include Indigenous history and perspectives and support cultural awareness.

Personalization

Each student has unique strengths and challenges. Students want to feel accepted, supported, and acknowledged.

Partners in Learning

Connection and collaboration with community and families helps us achieve our common purpose.
