

How to Support Your Child in Math

Talk about numbers and math in the world around you.

What's the closest dollar amount?

What unit do we use to measure gasoline?

How much more does diesel cost than gas?

About how long would it take to drive those distances?

If we were in Fort St. James, how far away would Houston be?

Which border crossing takes the longest?

How many times could you cross at Aldergrove in the time it takes to cross once at Pacific Hwy?

Foster positive attitudes about math through play and fun family experiences.

ROOKIE POINTS LEADERS	
THROUGH MARCH 4, 2020	
BECKETT SENNECKE	51
IVAN DENISOV	48
MATTHEW SCHAEFER	44
OLIVER KAPPAEN	32
RYAN LEONARD	31
BEN KUNDL	29
FRASER FORSTER	29

Practice basic addition and multiplication facts together.
